

XL-8055 Multi-Color Paint Flake Emulsion

Features

- Copolymer of high grade material and additives with advanced technology.
- Fast reaction with the Synthetic Silicate Solution, the color flakes paint made from this emulsion is very stable in storage.
- Excellent elastomeric performance, the flakes made from this emulsion is very strong and has very good compatibility with the pigment, no pigment bleeding.
- Environmental Friendly, APEO & Formaldehyde free.

Product data

Appearance	Milky white with blue
Solid content, wt%	55.0 ± 1
PH	7.0–9.0
Viscosity, mPa.s	1000–3000
Average particle size, μm	0.20 ~ 0.25
MFFT, °C	0
Ionicity	Anion

Application

- This emulsion is used to make color flakes paint for Multi-Color paint
Suggested emulsion weight percentage in the paint formula: 30%–35%
- Application temperature: +5°C ~ 40°C, do not apply when there's raining or will be raining.

Packaging & storage

- Package: 1MT IBC tote or 20MT flexitank.
- Storage: the product should be kept away from sun light in a cool place; storage temperature is 5°C–35°C; storage time of efficacy is 6 months.

Safety information

Please refer to product MSDS.
