

XL-2236L-1 Transparent Waterproof Adhesive

1. Product Introduction

XL-2236L-1 is a special designed pure acrylic adhesive with imported special monomers.

2. Product Features

XL-2236L-1 is designed for covering common substrate cracks such as cracks on tiles, exterior/interior paint, concrete wall, etc., to prevent water penetrating from the cracks. This model is with very small particle size which will make a very strong film with excellent waterproofing, anti-cracking performance. The application of this adhesive is very easy, usually with brush or rollers.

3. Product specification

| item | index |
|---------------------------------------|--------------|
| Solid content (wt%) | 35.0±1 |
| PH | 6.0-9.0 |
| Viscosity (mpa. s) | 60000-100000 |
| Calcium stability | Pass |
| Mechanical stability (2500rpm, 0.5hr) | Pass |
| Minimum film forming temperature(°C) | 5 |
| Average particle size (μm) | 0.1 |
| Surfactant type | Anion |

4. Package and storage

1. Package: 50kg Plastic Drum, 1MT IBC tote.
2. Storage: the product should be kept away from the light in a cool place; storage temperature is 5-35 °C; storage time of efficacy is 6 months.
